EDUCATION

MARWADI UNIVERSITY

B.Tech in Computer Engineering

Expected Graduation: 2028

Current CGPA: 6.97/10 (On track to achieve 7.5+)

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems, Computer Organization & Architecture, Advanced Web Technology, Design Thinking & Problem Solving, Professional Ethics, Discrete Mathematics, Linear Algebra

SARVODAYA CO-ED VIDYALAYA

New Delhi

Class XII, CBSE Board

2024

Percentage: 58%

SANTOBA INTERNATIONAL SCHOOL

Class X, CBSE Board

2022

Percentage: 71%

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, Java, SQL, HTML5, CSS3

Frameworks & Libraries: Next.js 14, React 18, Node.js, Express.js, FastAPI, Tailwind CSS, Framer Motion

Databases & Tools: MongoDB, Supabase, PostgreSQL, Git, GitHub, Vercel, Docker, Postman, VS Code

Concepts: Data Structures & Algorithms, OOPs, DBMS, OS, Computer Networks, WebAssembly (WASM), Client-Side AI Integration, RESTful APIs, CI/CD, Agile Development

Emerging: AI/ML Integration (Groq API, ONNX Runtime), Web Workers, Browser APIs

PROJECTS

BoringTools – 101 Browser-Based Micro-Utilities

boringtoolsai.com

Solo Project | Next.js, TypeScript, Tailwind CSS, WebAssembly, Groq API

- Built and deployed 101 privacy-first, client-side web tools in 100 days with 295+ commits, serving 100+ monthly active users with zero server-side data processing
- Integrated LibreOffice WebAssembly (WASM) for browser-based DOC-to-PDF conversion, resolving SharedArrayBuffer cross-origin isolation issues by implementing scoped COOP/COEP headers in Next.js configuration
- Optimized performance through dynamic imports and route-based code splitting, achieving 100/100 SEO score and 96/100 Accessibility; currently optimizing bundle size to improve Performance score from 37 to 80+
- Implemented AI-powered tools (Playlist IQ, Cinematic Prompt Architect) using Groq API for real-time content generation, reducing user research time by 70%
- Established unified design system with responsive layouts and keyboard accessibility across all tools

Vakiogiri – AI-Powered Video Clipping Platform

In Development

Tech Lead | Python, FastAPI, Next.js, Groq API, Supabase

- Developing an automated video clipping tool that identifies high-engagement segments from long-form content using AI, saving content creators approximately 1+ hour per video in manual editing time
- Architecting backend with FastAPI for async processing and Next.js for responsive frontend with real-time preview capabilities
- Implementing automated transcription and keyword-based highlighting with Groq's LLM for intelligent segment detection

Bhaichara – AI-Powered Student Support Platform

GitHub Pinned

Full Stack Developer | React, Node.js, Express.js, MongoDB, Groq API

- Engineered a conversational AI platform to help students navigate campus life, mental health, and academics with instant support
- Designed RESTful APIs with Express.js and implemented secure JWT authentication for 100+ test users
- Integrated Groq API for real-time AI responses with context-aware conversations

ODDSOCEAN – eSports Community Platform

Since July 2022

Founder & Lead Developer | Community: 1,100+ Players

- Founded and scaled an eSports organization from scratch, building a community of 1,100+ active players with a core team of 3 members
- Organized and executed 4 major tournaments with online/offline rounds, managing registration, brackets, and live streaming
- Developed community management systems and automated tournament workflows

ACHIEVEMENTS & LEADERSHIP

- 8th Rank, WebX Challenge 2026 Hackathon (Xinity Tech Community, Marwadi University) — Designed and presented an innovative community webpage in team of 3; competed through online and offline rounds
- Smart India Hackathon 2026 Participant — Currently developing solutions for real-world problems under 36-hour hackathon format
- 100-Day Building Challenge Completion — Successfully shipped 101 functional web tools in 100 days, demonstrating extreme consistency and execution speed with 295+ GitHub commits

CERTIFICATIONS & TRAINING

- Problem Solving for Success – Wingspan (March 2026) — Completed comprehensive course on problem-solving methodologies and analytical thinking
- Design Thinking: Unlock Innovation and User-Centricity (2026) — Learned human-centered design approaches for building user-focused products

ADDITIONAL INFORMATION

Languages: Hindi (Native), English (Professional Proficiency), Spanish (Beginner)

Interests: Competitive eSports, Building Developer Tools, Football, Open Source Contributions

Availability: Seeking SDE Internship opportunities for Summer 2027
